

ST. PAULS HOME SAVES **\$57,000 PER YEAR BY CONVERTING TO LED**

A FULL BUILDING RENNOVATION WITH LED LIGHTING

Donovan Energy provided a building-wide lighting solution for St. Paul's Archbishop Leibold Home, a Five-Star Care Facility for elderly poor individuals, located in Clifton, Ohio just 9 minutes from downtown Cincinnati. St. Paul's Home serves as the residence for nearly 100 men and women ranging in age from 65 to more than 100 years old. The 7 story building underwent a full LED conversion which included all lighting within the facility from the resident rooms to the chapel.

ANNUAL SAVINGS THE ENERGY SAVINGS MATTER

\$33,777
ENERGY
